Falko Guderian

Principal Manager & AI Platform Architect available for exciting opportunities

About Me

I'm an accomplished AI leader with a proven track record in managing and delivering successful projects. With expertise in Generative AI and a passion for innovative technologies, I thrive on driving operational efficiency and fostering collaborative leadership. I am driven by data-driven decision making and continuously seek opportunities to stay at the forefront of the AI field. As I aim for higher leadership roles, I am committed to making a greater impact and contributing to the technological advancement of AI.

Date of birth: January 2, 1980

Work experience

SENIOR ENGINEERING MANAGER, PROJECT LEAD, TEAM LEAD *September 2021 - present*

Capgemini Invent - Berlin, Germany

Oct 23 - Nov 23 (.1M €) - Public Defense:
• Provisioning of Generative AI (GenAI SME) - Provisioning of Generative AI Architecture and Use Cases

Aug 23 - Oct 23 (.1M €) - Public Finance:
• Knowledge Assistant based on Generative AI (GenAI SME) - Architecture and Prompting Support

Jul 23 - Dec 23 (.5M €) - Public Finance:
• Semantic Interoperability for Legal Concepts using Generative AI (GenAI Lead) - Leading the development of an end to end approach based on GenAI

May 23 - Oct 23 (1M €) - Public:
• Efficient Design of Complex Administrative Procedures with Generative AI (GenAI Lead) - Leading the GenAI architecture and PoC development

Feb 23 - May 23 (.5M €) - Public Defense:
• BSI IT Basic Protection (Engineering Lead) - Leading the AI driven automation of security requirements analysis

Mar 22 - Today (5M €) - Public Finance:
• Fraud Detection (Project Manager) - Leading and consulting in AI project for fraud detection

Sep 21 - Dec 21 (.5M €) - TelCo:
• Cloud Transformation (Architect) - Development of cloud and analytics business cases for multiple subsidiaries in the group

Driving license

- C1, B

Skills

- Team and Project Management, Project Acquisition, Presales
- Portfolio Management, Innovation Management, Technology Roadmapping
- Artificial Intelligence, Data Science, Advanced Analytics
- Solution and Platform Design
- OpenAI, Aleph Alpha, Llama, Huggingface
- Cloud, Virtualization, Docker, Linux, Windows
- Data Mesh, BSI IT Basis Check
- Chainforge, Chainlit, Langchain, LlamaIndex
- Streamlit, Hadoop, Kafka, Mulesoft
- Python, Java, (C/C#/C++)
- PMP, SAFe, ISTQB, ITIL, NAFv4, TOGAF

- OOA, OOD, OOP, UML, SCRUM, Kanban

Languages

German - Native

English - Expert

SOLUTION MANAGER, CLOUD ARCHITECT

February 2018 - August 2021

Deloitte - Dresden, Germany

May 21 - Aug 21 (.1M €) - Energy Industry:
• Cloud Integration (Architect) - Design reviews and development support of API-driven solutions (MuleSoft)

Dec 21 - Apr 22 (.5M €) - Public:
• Information Retrieval (Project Manager) - Development and comparison of information retrieval architectures based on Elastic Search

Oct 21 - Feb 22 (.3M €) - Automotive:
• AI Strategy (Architect) - Idea generation, analysis, and evaluation of AI use cases

Mar 20 - Oct 20 (.3M €) - Consulting:
• Cloud Migration (Architect) - Solution design and rollout of a hybrid cloud application using AWS Cloud and Private Cloud

Aug 20 - Dec 20 (.3M €) - Public Defense:
• Architecture Consulting (Architect) - Cloud architecture assessment including application component portfolio for a private cloud

Jun 19 - Dec 19 (.5M €) - Public Finance:
• Architecture Consulting (Architect) - Information Security Analysis including vulnerability remediation

May 19 - Dec 19 (.5M €) - Public Defense:
• Crisis Preparedness Information System (Development Lead) - Design of cloud-based microservice architecture and prototype implementation using Scrum-based approach

Feb 18 - Mar 18 (.5M €) - Automotive:
• Map-based route optimization (Data Scientist) - Developing metrics in route optimization using Hive/Hadoop

Apr 18 - Sep 18 (.5M €) - Automotive:
• Anomaly Detection in Production (Data Scientist) - Development of features and algorithms for anomaly detection in laser hardening

EXPERT SOLUTIONS ENGINEER

November 2014 - January 2018

T-Systems - Dresden, Germany

Aug 17 - Jan 18 (.1M €) - Public Transport:
• Application Lifecycle Management (Team Lead) - Portfolio Management of analytics applications (APEX, Oracle, Splunk, etc.)

Apr 17 - Jul 17 (BD) - TelCo:
• Predictive Maintenance in Data Center (Data Scientist) - Data analysis and feature extraction for failure prediction of IT infrastructure and hardware components

Jul 16 - Mar 17 (1M €) - Public Transport:
• Predictive Maintenance in Transportation (Project Manager, Data Scientist) - Feature engineering for AI model. Big Data Test Management

Jan 15 - Jun 16 (.5M €) - TelCo:
• Voice Delivery Platform (Project Lead) - Portfolio and test management of the software platform

PROJECT MANAGER FOR HARDWARE/SOFTWARE DEVELOPMENT

February 2013 - May 2014

Rohde & Schwarz - Dresden, Germany

Feb 13 - Jun 14 (.3M €) - Private Defense:
• SW/HW Development for Satellite Communications (Development Manager) - Architecture design and test of hardware and software for applied communications engineering

DOCTORAL STUDIES IN ELECTRICAL AND INFORMATION SYSTEMS ENGINEERING

November 2008 - January 2013

Technical University of Dresden - Dresden, Germany

Nov 08 - Jan 13 - Public Academia:
• Microsystems Optimization and Simulation (PhD candidat) - AI-based optimization and event-driven system simulation using Matlab, C/C++ and Verilog

Education

DR.-ING.

2008 - 2013

Dresden University of Technology, Electrical and Information Systems Engineering - Dresden, Germany

• AI-based optimization and event-driven system simulation using Matlab, C/C++ and Verilog
• Tutor "Fundamentals of Communications Engineering"
• PhD thesis: "Developing a design flow for embedded systems"

DIPL.-WIRTSCH.-INFORMATIKER, DIPL.-WIRTSCH.-INGENIEUR

2000 - 2007

Dresden University of Technology, Electrical Engineering, Economics - Dresden, Germany

Parallel studies in business informatics and industrial engineering
